**November Networking Opportunities**

**Terry's Networking Tip of the Month:**

Most businesses know that it is important to thank their clients for their patronage, but ow many of us make a point to publicly thank our networking associates when they refer us? If you belong to a networking group or professional organization and someone refers your business to a prospect, be sure to thank them and let the rest of the group know about the referral. It builds their credibility, and will probably lead to more referrals for you!
