Building on Our Success

President Michael Givler

The Western Chester County Chamber of Commerce announced its new vision and mission statements at a recent event held at ArcelorMittal. Over the last year the Board of Directors has spent a great deal of time working on updating our strategic plan which will take us into the future with purposeful goals and renewed commitment to our members and community. Our members were asked to provide feedback and their ideas were incorporated into the strategic plan's goals.

Please join us in thanking Past President Tasha Delaney for guiding the Board through this important process of renewing our strategic plan. The Western portion of Chester County continues to grow as it is one of the few areas in the County where opportunities exist for development. The Western Chester County Chamber has taken a regional position toward serving the 18 municipalities within the Chamber's service area.

The Chamber continues to seek a balance of small, mid, and large size businesses. Through strategic partnerships with organizations such as the Chester County Economic Development Council, the Brandywine Health Foundation, and others, the Chamber has improved its visibility and presence in the business community.

WCCCC challenges its members to work with us to execute this new plan which will build a stronger chamber and community. We welcome the opportunity to work with each and every chamber member to continue to be the driving force in Western Chester County. Go WCCCC!!!!
